**400 PRIME LAMBS**

A slightly smaller entry of prime Hoggets in terms of numbers but again of similar general quality to the entry of last week with quality at the higher end of the spectrum. The trade and average was almost identical to last week and again better than that seen in Friday and Saturday sale centres and up on the Monday National Average. There was however a distinct premium for the best end of the Hogs within the desired weight spectrum and the top selling was as fast as last week. It is again reiterated that we need a larger weekly entry to meet buyer demand with the number forward today not sufficient for our valued customer base to get full loads. Follow our predictions through the week via social media and the website and we hope for another fast trade and a larger entry next week. The SQQ average of £1.90ppk and the overall average of £1.88ppk was boosted by the general quality forward.

***Note - Farm Assurance is important and the girls in the office require the 'Green Forms' to be filled out and signed with consignments.***

## **200 CULL SHEEP**

A much better entry of Cull Sheep on the week in terms of numbers and strength. The trade was a further improvement to the fast trade of last week with improved buyer support for all categories. There were some tremendous pedigree ewes forward and the strong, well meated ewes were again best sold in terms of consideration on the day. The fleshy hill ewes were also better sold on the week. The overall average of £55 reflects the improved trade and will be set to rise further through the spring to the festivals in early May.
